Your partnership will not only benefit your business endeavors, but will offer help to those who are in the battle for their lives...fighting cancer. The Foundation, a 501c (3) nonprofit organization, provides assistance to local cancer patients, insured and uninsured, who need help with transportation, medication and/or social services and insurance navigation.

Today, cancer touches almost every family or will at some time in the future. Approximately 1 in 3 of US will develop cancer in our lifetime. We or our closest friend or neighbor could need the help of the Foundation. Since 2007, the **value** of our services provided to cancer patients is approximately \$25 million worth of much needed support to patients right here in our neighborhoods.

Your assistance and generosity is genuinely appreciated. This partnership will allow us to continue our efforts in support of local cancer patients. Together, we can make a difference.

Sincerely,

Lucile G. Waller
